

Vishwashanti Gurukul, IB World School adds another feather in its cap of achievements.

Greetings from MIT Pune's Vishwashanti Gurukul, IB World School.

It gives me immense pleasure to share with you that Vishwashanti Gurukul, IB World School adds another feather in its cap of achievements. We are ranked 2nd in Maharashtra's International Residential Schools and 5th in India by Education World India School rankings 2016.

In the past, Vishwashanti Gurukul has occupied envious spots at the zonal level surveys executed by leading newsrooms and this year we have carved a niche at the National Level too. This achievement is a direct consequence of unstinted support from our Management and various other stakeholders. It affirms the belief in our systems and motivates us to set our eyes on higher targets.

About *EducationWord* – For the past eight years *EducationWord* has been publishing the annual *EducationWord* India School Rankings with C fore, the well-known Delhi based market research and opinion polls survey. It rates and ranks 1000 of India's most high profile schools spread across 28 cities on 14 parameters – academic reputation, faculty competence, leadership quality, sports education, etc.

We consider it, our pride to be a recipient of this National Level ranking, while at the same time, continue our efforts to scale greater heights. To attain success that widens its horizon at every lap- is our belief and endeavour. I on behalf of our Gurukul family, thank you for being a part of our success story.
